	Does this information reflect a change in the currently approved project funding plan? If yes, explain the reason(s) for change in the box below:	
Yes:	The project has been extended 2 years till a 2008 sales tax measure can be placed before the voters. This requires two years of additional project management. During these two years final engineer	ling
	work will be prepared for the corridor to specifically determine project impacts, the EIS will be prepared and project costs will be updated.
